

From Scott and the Team

*We wish you all a Very Happy Xmas and a
Merry New Year!*

In this Newsletter... *What's New?*

Crane / Truck

The new Lil Lifter is in full swing with some fresh paint and bright new stickers. We're ready to pick up, deliver, move, shift, hold... whatever it is you need!

Gardening

With a bunch of new tools on hand we're ready to go! Chainsaws, Brushcutter, Hedge trimmer, Blower and Mowers we can tackle the biggest (or the smallest) of jobs!

Handyman

With Christmas just around the corner, *Window Cleaning* seems to be the flavour of the month!

Go from 'smear' to 'clear' in just a few hours...

IT Services

Our new remote log in software is working a treat... Get your PC tuned up, Anti-Virus checked, software installed and anything else you need without requiring a site visit!

In some cases you don't even need to be there! Just leave your computer switched on and we can take care of the rest.

(requires initial software installation)

Rigging

Well this year's Theatre season might be coming to a close, but next year's planning is just beginning! Don't forget we can not only rig your set, hang your props and fly your cast... we can provide backstage services, set building and pretty much anything else you may need :-)

Also a big welcome to the staff and students at **Brighton Secondary School**, and their awesome new **Performing Arts Centre**. Good luck for the New Year's shows.

The Crunchtime "Shed"

Yes it's been a long time in the making... and unfortunately it's still a little while away...

The plans for the new workshop were declined by council due to its size, so we have remodelled and reshaped a smaller yet still very viable sized workshop. Construction is now due to be started early February and fit out/completion expected March 2012

Perfect for set construction, trailer manufacture and any other project that pops up...!

\$\$ Rates and Payments \$\$

We are in the process of changing bank accounts, so if you'd like to update your details for Direct Deposits:

Account # 10266463 - BSB 065149

We have also made a small change to our rates, due to the rising costs (of just about everything...!) we are no longer able to offer the \$30 hourly rate that has been used in some situations.

\$40 per hour is now our standard rate and includes the use of all tools and equipment, be it gardening, welding, maintenance etc... Special rates can be negotiated for larger or particular types of jobs. Please see our website for further information

Thanks!

This year has seen some great things with **Crunchtime Solutions**, the crane/truck, the shed plans, website, but most importantly all my wonderful clients! Without all you wonderful people business wouldn't be possible and I want to say a big thanks to everybody 😊

I sincerely wish you all a very Merry Christmas and a Happy New Year, and look forward to seeing you in 2012

Take Care *Scott Broadbent*
